Our Marlux Disposable curtain range has a fresh, clean appearance and provides effective infection prevention and control in a hospital. These curtains are quick and easy to change and have a low environmental impact as they are made from 100% polypropylene. Marlux Curtains are a convenient disposable curtain which offers the patient with an improved environment during their hospital stay.

**ABOUT THE CURTAINS**
- Manufactured from a durable, disposable and completely recyclable polypropylene fabric
- Opaque curtains ensuring privacy
- Supplied in a biodegradable plastic sleeve
- The pre-pleated curtains come with an integral hook, which means that they can quickly be hung or removed
- Water resistant
- Cubicle curtains can be fitted to existing track using an adapter, or new track can be fitted.
- New tracking for window curtains can be fitted with minimum disruption
- Marlux disposable curtains comply with the same fire retardancy standards as conventional curtains: BS 5867 Part 2 Type C

**INFECTION CONTROL**
Curtains are an important element of the hospital’s fight against infection. Each patient is given a change of bedding, disinfected mattress and cleaned bedside table, yet conventional curtains are often not regularly changed, as this is a timely and costly procedure. The Marlux disposable curtain system has been designed to help control infection by making it both economical and easy to change curtains more frequently. The Infection Control department may wish to undertake their own risk assessment before setting a protocol for frequency of curtain change.

Each curtain comes in a protective sleeve and as the hooks are prefitted, the curtain does not need to be laid on the floor. It is quickly and hygienically hung onto the track and the sleeve is removed only when the curtain is in position.

The disposable curtains are an effective tool in the fight against Hospital Acquired Infections.
Marlux Curtains
Installation in New Zealand Hospital

“...The disposable curtains are quick and easy to change, they save time and have improved the environment for both patients and staff.”

Carin Charlton, Domestic Services Manager
Addenbrooke's Hospital, Cambridge

- Fresh, clean appearance
- Effective infection control
- Quick and easy to change
- Offer an improved patient environment
- Always available and easily monitored
- Low environmental impact
- Cost effective
Staff report that the use of disposable curtains aids them in the management of cleanliness on our wards and that changing curtains is now a pleasure rather than a chore.

Janet Crawford
Site Manager - R.P.C.T
Lings Bar Hospital, Nottingham

Each curtain comes in a protective sleeve and as the hooks are prefitted, the curtain does not need to be laid on the floor. It is quickly and hygienically hung onto the track and the sleeve is removed only when the curtain is in position.

The disposable curtains are an effective tool in the fight against Hospital Acquired Infections.
We keep replacement curtains on the unit so that when we need to quickly change a curtain, we can do so effortlessly and without any disruption or waiting.

Anne Tighe
Clinical Nurse Leader/Modern Matron, Cardiac Surgery Intensive Care Unit
Manchester Royal Infirmary

SELF-AUDITING
Specially designed labelling provides an opportunity for hospitals to self-audit the curtain change policy for each department.

QUICK AND EASY TO CHANGE
Each curtain can be taken down and refitted in 2-3 minutes per bed space. The curtains are supplied in 10 standard size, or 6 large size, per box, which is light for staff to pick up and to fit. They can be easily stored on the ward so that replacement curtains are available for nursing staff at any time, including nights and weekends. The curtains can be changed from the corridor space rather than the bed head, which is of benefit to staff and patients alike.
Our patients and visitors comment on how clean and tidy the wards look now. The difference is amazing!

Lorna Foster
Maternity Unit Matron
Birmingham Heartlands Hospital

FRESH, CLEAN APPEARANCE
The disposable curtains arrive pre-pleated, giving a lasting fresh, clean and modern look to the whole ward.
When not in use, the curtains stow neatly and compactly. This gives the patient more light and allows the nursing staff to see the patient more clearly.
A variety of colours are available, providing staff with the opportunity to rotate colour schemes if required.

COLOUR CODED CURTAINS
- Bali Sand
- Pastel Blue
- Pastel Green
- Pastel Pink
- Summer Blue (Stock Product)
- Midnight Blue
- Forest Green
We could not imagine going back to conventional curtains

Trevor Chacksfield
Facilities Manager
Weston General Hospital, Weston-super-Mare

COST EFFECTIVE
The use of Marlux® disposable curtains provides a modern and cost effective solution to the management of hospital curtains:

- Speed and ease of change, leads to considerably reduced labour costs
- No curtain laundry costs
- No capital outlay for curtains
- No disruption to ward areas during change of curtains

MARLUX QUICK RELEASE PINS
The Marlux disposable curtains have been designed to enable a quick change over of curtains. The hooks are held together in blocks of ten and secured with a Quick Release Pin. Once loaded, remove the red Quick Release Pins and the curtains are ready for use.

FITTING
Fitting of the Marlux disposable curtains has been designed to be quick and efficient. In most cases, existing track can be adapted, with Adaptatrack.
Existing tracks can be used, by simply converting them with the Marlux Adaptatrack. The Marlux Adaptatrack is available in different profiles to match existing tracking systems. The gliders from the existing track are removed and the Adaptatrack is inserted into the bottom channel. The Marlux disposable curtains fit directly onto the Adaptatrack, held in place by a retaining pin.
TYPICAL LAUNDRY MANAGEMENT FLOWCHART FOR WASHABLE CURTAINS

MANAGEMENT FLOWCHART FOR DISPOSABLE CURTAINS
For ongoing curtain disposal you are provided with "ENVIRO BAGS" (recyclable polypropylene certain collection bags)

These bags hold 20 curtains each

Once the collection bag is filled with curtains please remove backing from the adhesive strip and seal the bag

These are collected for recycling once filled

To arrange collection please contact
